Modernising Play for The Community

Client: Sowerby Parish Council
Address: Sowerby Road, York, YO26 4RW
Budget: £78,000
Age Range: All Ages

Project Story

Proludic were presented with a brief to create a play area full of modern, innovative and exciting play opportunities. The existing toddler area was to remain, with new equipment provided for the Junior and Teen age groups.

Sowerby play area was installed towards the end of 2007 and has been widely welcomed by the local community. It is well used by children of all ages, with the Cableway and Aeroskate being particularly popular.

The kit has proved itself to be robust, challenging and well received by the children. The project has been favoured and is drawing children from the surrounding areas as well as the local children. Ixo is an iconic piece of equipment within this play area and brings in the modern look but at the same time sits well within its surroundings.

After

"The new play facilities at Sowerby have created a fantastic, contemporary area for the local children to meet and play. The Cableway, Pod Swing and Ixo multi-play unit have shown to be particularly popular with the community".

Play Spaces for The Whole Community

Playgrounds provide opportunities for local communities to come together at many different levels. They appeal to all ages, abilities and backgrounds, and they help both children and adults to meet and make friends. Creating a play space for varying age groups also encourages families to be active and have fun together.
