

King George V

Ferryhill Play Area Gets a Facelift!

Client: Ferryhill Town Council
Address: Off Raby Road, Ferryhill, DL17 8AN
Budget: £26,000
Age Range: Toddler, Junior & Inclusive

Project Story

King George V Playing Field is a popular recreation spot in Ferryhill, it is regularly used by children and home to one of the town's football clubs. Despite being so popular the playing field hasn't received any investments for nearly two decades! The play equipment had started to deteriorate over the last few years and the Town Council were keen to give the whole playing field a makeover!

The design proposal offered by Proludic was unanimously voted for by both the Town Council and the local residents. The proposal offered a range of colourful play equipment with a variety of different play activities for up to 37 children aged three years and above and with a broad variety of abilities.

After

"This project has ensured that a well-used, central recreation facility is given a new lease of life. It has not only enhanced the aesthetic appearance of the park but has provided new more challenging play equipment."

- Karen Younghusband, Grants & Projects Officer

Diabolo

Diabolo provides a variety of activities in a compact space, for children aged 2-10 years. It will bring even the smallest areas to life.
All the classic types of play equipment are included to engage both younger and older children: slides, fireman's poles, climbing walls, and hiding places are the basic elements in these multi-purpose structures arranged around platforms of 4 different heights.
