## THE CHALLENGE:

Cinnamon Lane was an existing play area in the heart of Glastonbury. The main brief for the project was to refurbish and enhance the historical play offering, whilst incorporating some of the local features in this very picturesque part of the South West.

It was important the design reflected the rural location while offering excellent play value to the community.

## THE SOLUTION:

Proludic were chosen unanimously through the tender process. We took a landscape led approach to design, and worked hard to bring local features into the playground. Bird boxes around the site offer a home to local wildlife, while the playground has its very own fairy knoll's. There is even a picture frame hung with its own view of the Glastonbury Tor.

We also wanted to bring in changes in levels into the playground so we incorporated banks and mounds to further enhance the play environment.
