Technical Specification

J1130

1- The **tubular slide** is made of rotary moulded polyethylene.

2- The **“Durax” platform floors** are machined from 22mm plywood panels made up of fine layers of birch. The surface is coated with a non-slip thermoplastic polyolefin film, and circled with a 40mm diameter stainless steel tube.

3- The **coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it offers excellent resistance to weathering and vandalism.

4- The **125mm diameter posts** are made of lacquered galvanised steel. The two-tone grey graining finish has a slightly undulating surface for increased scratch resistance.

5- The **stainless steel fixings** are protected by polyamide anti-vandal caps.
