

# Rodeoboard® - J3501

## Technical specification

1- **The rotating platform** is made up of 2 HPL discs that give the equipment an extremely solid base. A non-slip channelled aluminium surface provides a good hold during rotation.

2- **The oscillation system** is based on the interaction of three highly resistant steel springs (35SCD6 grade steel) fitted with anti-trap retention components (patented by Proludic).

3- **The grip section** of the stainless steel handle is overmoulded with rubber to give a good grip.

4- **The stainless steel fixings** are protected by polyamide anti-vandal caps.
