

James Seely Park

New Origin Range Installed Into Nottinghamshire

Client: Calverton Parish Council

Address: Main Street, Calverton, Nottinghamshire, N614 6LU

Budget: £44,000

Age Range: Toddlers & Juniors

Project Story

The challenge was to take inspiration from the natural elements that surrounded the area and developed a concept that harnesses all of our expertise to provide the parish community with a new modern play area that demonstrated a natural feel that would sit comfortably within the surrounding environment.

By using Origin, a new Robinia range for 2013 that captures the essence of nature by combining natural materials with clean product lines, we were able to create a site that delivers maximum play value with minimal intrusion. Catering for children between the ages of 2-8 the focal point is the Origin multi-activity unit that combines climbing, sliding and balancing elements. Cradle swings, a roundabout and low-level sensory play items compliment the Origin unit along with an Eco-Bond surfacing.

After

The play area has already proven to be a huge success and feedback from local residents is extremely positive.

- Jan Pauley. Local Improvement Officer, Nottinghamshire County Council

Origin Equipment

The Origin' range reproduces the very essence of what nature has to offer: a forest walk, crossing a stream over stepping stones or an uprooted tree trunk, a playhouse made of fallen branches, an adventure trail that includes climbing, sliding and observing. Children's senses are awakened and stimulated by visual and tactile contact with Robinia wood.
