

# Rushcliffe Country Park

## Medieval Themed Play in Nottinghamshire

Client: Rushcliffe Borough Council

Address: Mere Way, Loughborough Road, Nottinghamshire, NG11 6JS

Budget: £130,000

Age Range: All Ages

Case Study Video Here

### Project Story

Rushcliffe Borough Council wanted to refresh their equipment in the current flagship park as some of the items were more than 15 years old. They wanted to achieve a user-friendly park that retained the 'wow' factor while being low maintenance for their staff. The main objective was to target local families so they could come to the park with a picnic and spend the whole day there enjoying the facilities.

Proludic decided to theme the equipment at the park around local attractions in Nottinghamshire, providing themed castle multi-play equipment and a tower to replicate Nottingham Castle. All of this was achieved through our *Grafic Games* equipment range which allows us to be bespoke and tailor our equipment to the client's needs. At 8 metres tall the play tower is one of the tallest play structures in the country—creating a real focal point for the park and cementing its status as a 'Green Flag' destination park. To ease maintenance the sand area was given new raised edging to keep the sand in and artificial grass in the park created more informal seating areas.

After

Retaining Green Flag status is proof that Rushcliffe Country Park continues to be one of the best parks in the country.

## Themed Equipment

The Medieval theme brings to life a period in history that fascinates children and adults alike. Containing all the details of a magnificent medieval stronghold, complete with shutters arrow slits and ivy climbing the walls. The decorative aspect is further enhanced with banners, coats of arms and flags flying from the turrets. The use of bold colours such as blue, red, yellow and orange makes the structures stand out.
