

Albrighton Primary School

Learning Through Play

Client: Albrighton Primary School

Address: New House Lane, Wolverhampton, WV7 3QS

Budget: £12,000

Age Range: Toddlers, Junior & Families

Project Story

Albrighton school had some lovely green space and needed to revamp a tired playground, with an empty bark area in need of some TLC. Playtime is always busy at school, and with the fields not being used all year round, they needed something to occupy children in all seasons.

Proludic were able to find a solution, that met Albrighton's needs. A multi-play unit that allowed lots of children to play on it at once, with a range of play activities throughout the year.

The Vivarea unit on the bark pit looks beautiful with the surrounding trees and is heavily used on a daily basis.

After

Before

We were impressed with Proludic from start to finish, they really had a vision for what we wanted and were stress free from initial ideas through to installation and sign off. The unit is now used during curriculum time and the kids absolutely love it, as do we!

Play for Learning

Playing is a fundamental requirement for a child's development, helping them evolve, both in terms of motor skills and at sensory, cognitive, creative and social levels. By playing children actively participate in their own development and growth. Play is, therefore, both the inherent mode of expression for children and is an important learning tool.
