

Herefordshire Housing

Multi-Site Success in Herefordshire

Client: Herefordshire Housing
Address: Available on Request - Across 3 Sites
Budget: £75,000
Age Range: Toddlers, Junior & Families

Project Story

Herefordshire Housing had some existing play areas that were old and causing antisocial behaviour with the community. With more houses being developed and refurbished, there was an influx of families with children to the estate. They wanted a solution that was going to be cost effective but also with future maintenance costs.

Proludic were able to offer a cost-effective solution with suitable surface and equipment choices. Due to Proludic's equipment being produced in one factory, maintenance was easier due to the consistent fixtures and fittings on items. The Diabolo multi-play range was chosen to bring colour and life to even the smallest of spaces.

We choose Proludic as our preferred supplier as it was obvious they fully understood the brief and have delivered beyond our expectations.

Diabolo Equipment

Diabolo provides a variety of activities in a compact space, for children aged 2-10 years. It will bring even the smallest areas to life.

All the classic types of play equipment are included to engage both younger and older children: slides, fireman's poles, climbing walls, and hiding places are the basic elements in these multi-purpose structures arranged around platforms of 4 different heights.
