Proludic & Keepmoat in Partnership

Client: Keepmoat

Address: Milton Road, Abingdon, OX14 4BF

Budget: £31,000

Age Range: Families

Project Story

Proludic were the chosen supplier for the on-site Leap on Milton Road after designing a play area with a very natural feel, enabling the play area to sit harmoniously within the housing development. Just before work had begun, the site had been changed with a repositioning of the surrounding landscaping.

These changes can occasionally cause delays for some contractors however we didn't see the landscaping change as a major problem. Due to our extensive design capabilities, we got our design team to re-draw the CAD (computer-aided design) and were able to install the equipment as planned. It was also signed off without any issues with planning departments.

After

Before

We have been delighted to have been working with Proludic on our play areas on a number of developments. They have been able to provide us with CAD drawings and suitable, approved plans where necessary but also provide cost effective solutions to existing drawn up plans. We have been impressed with their service from design to delivery to after sales and would recommend them to others.

Stepping Logs

Pod Swing

Origin Slide

Origin Equipment

The Origin' range reproduces the very essence of what nature has to offer: a forest walk, crossing a stream over stepping stones or an uprooted tree trunk, a playhouse made of fallen branches, an adventure trail that includes climbing, sliding and observing. Children's senses are awakened and stimulated by visual and tactile contact with Robinia wood.
