

The Lensbury Club

Quality and Innovative play in the leisure sector

Client: The Lensbury Club
Address: The Lensbury Club, Broom Lane, TW11 9NU
Budget: £160,000
Age Range: Families

Project Story

The Lensbury Club were looking for a provider of play equipment to enhance the facilities for outdoor play opportunities for their members children. They selected Proludic to work with them having visited similar large installations nearby. The aim of the project was to provide a play space that matched the high-end provision The Lensbury Club are renowned for. Quality and innovation were key to the design.

Design drafts were provided until the client was happy with the final layout, and then works began to remove the old play facility and install the new one. Our installers worked to strict and exacting Health and Safety guidelines, ensuring minimal disruption to the day to day life of the club and its members.

After

I am delighted to open this fantastic play area for local children. This project has been achieved through rigorous consultation and delivered through the hard work and effort of the local community, partners and council officers.

Health & Wellbeing

There are many reasons why children should play outside, from expressing creativity to running around freely, to making messes without worrying about dirtying the house. In addition to these fun reasons, there are also many health benefits that make outdoor play great for children.

1. Improves Vision
2. Promotes Social Skills
3. Increases Attention Span
4. Reduces Stress
5. Provides Vitamin D
