

Urbanix Multi-Site

Providing Outdoor Fitness Opportunities

Client: Warwick District Council

Address: Redland Recreation & Priory Pools (Leamington Spa & Warwick)

Budget: £20,000

Age Range: 14+ Years

Project Story

Warwick District Council recognised the need for more people to become active in their everyday lives. They wanted facilities which harmonised with the natural surroundings, rather than standing out from them. They wanted two small sites of outdoor gym equipment, enabling more people to have access AND be active.

Proludic were able to meet the Council's challenge, by delivering our unique outdoor gym range - Urbanix. Both of the sites featured some of the same items for familiarity and also some different items to create diversity. The hydraulic piston-based system had never been used before in Warwick, but having seen the success in other areas it soon became a huge hit with staff and members of the public.

We were able to install our equipment with a super-fast turnaround. It took only 3 weeks from receiving the order to site completion. With an average lead time of 6-8 weeks, Warwick District Council were thrilled with the speedy installation of our equipment.

Redland Rec

I was really impressed by the speed of service and quality of installation of the new Gym Equipment at both sites. The quality of the piston on the gym equipment really opens the facilities up to wider audience and we couldn't be happier with the project as a whole. We had everything installed and signed off within 3 weeks of order, which is great as it is open to the public a lot quicker than we first thought.
