

Catlin Gardens Play Area

Vibrant Upgrade for Godstone Residents

Client: Tandridge District Council

Address: Clayton Mead, Godstone, RH9 8NT

Budget: £30,000

Age Range: Families; Toddler; Inclusive

Project Story

Tandridge District Council instigated a tender process to upgrade the existing small, tired play area in the Catlin Gardens development. The brief was to increase the play value, keep within the tight boundaries of the existing area, and provide local residents with toddlers a new park that is visually appealing. They chose the jungle theme from our Adventure range which allowed for a colourful, imaginative and fresh take on the existing park. Our equipment choices provide all the traditional play values and the exciting thermoplastic ground floor graphics give great role play opportunities. The park also features an inclusive roundabout, numerous low-level play opportunities, hideaway seats and bright colours to make it appeal to users with disabilities.

After

Before

“ Proludic designed and delivered a vibrant new park at Catlin Gardens. The project has been delivered smoothly and professionally - and we would have no hesitation in considering their proposals for future work in the District. ”

Ian Hudson, Parks and Countryside Supervisor.

Proludic's Adventure themed range

The Adventure themed equipment is designed to transport children into the leafy undergrowth of a jungle environment. The young explorers can encounter a whole host of wonderful wild animals. Each of the structures comes complete with a wide range of play elements containing challenges to stimulate the senses.
