

# Bratch Park, Wombourne

## A jewel in the Parish Crown

Client: Wombourne Parish Council

Address: Bratch Park, Bratch Hollow, Wombourne, Wolverhampton WV5 8DF

Budget: £45,000

Age Range: Junior, Toddler

### Project Story

The Council's Recreation and Amenities Committee had very set ideas of what they wanted for the play area following various consultations with local primary school children. Proludic made a proposal based on this consultation and presented it with a photograph of the park as the background, so the Council could really see the Committee's vision come to life. Proludic listened to the suggestions the Committee had made, and put recommendations forward as to the best equipment to suit the ages of the children and within a budget that was acceptable to the Council.

After

Before

The development has been a massive hit with the Council, the local residents and school children. It's been described as the jewel in the Council's crown and is used on a daily basis. One resident recently said 'I am pleased to inform you that the children's play area has continued to be popular and is giving lots of pleasure to many children. It was a pleasure working with Proludic, they are an imaginative, professional company who delivered on their promise. I'd have no hesitation in recommending them to any other Parish Council who are looking to make improvements to their leisure facilities.'

Rachael Wright - Parish Clerk

## New Play Equipment

## Trampoline & Playhouse

## New play area

## Roundabout & Springer

## Play for Learning

Playing is a fundamental requirement for a child's development, helping them evolve, both in terms of motor skills and at sensory, cognitive, creative and social levels. By playing children actively participate in their own development and growth. Play is therefore, both the inherent mode of expression for children and is an important learning tool.
