

Westfield Recreation Ground

Activities for The Whole Community

Client: Harpenden Town Council

Address: Westfield Recreation Ground, Harpendon, AL5 4LS

Budget: £68,000

Age Range: All Ages & Abilities

Project Story

Westfield Recreation ground was very run down, with dated and rotting wooden equipment. The play area wasn't being used by children due to a lack of safe equipment and therefore became a hangout place attracting anti-social behaviour.

Harpenden Town Council wanted to give the play area a new lease of life, adding new play equipment and a trim trail as well as rejuvenating the existing MUGA. The new equipment needed to have a natural theme, be robust, offer lots of play value and be challenging.

Proludic provided a new play area for a wide age range, catering for toddlers, juniors, teenagers and adults. By using our Kanope range, Vivarea unit and wooden Trim Trails we were able to provide the natural feel that the Council wanted. All our materials, both wooden and galvanised steel are very robust with low maintenance.

Play Spaces for The Whole Community

Playgrounds and fitness areas provide opportunities for local communities to come together at many different levels. They appeal to all ages, abilities and backgrounds, and they help both children and adults to meet and make friends. Creating a play space for varying age groups also encourages families to be active and have fun together.
