

Wynhill MUSA

A New Playground for Teenagers

Client: Bingham Town Council

Address: Bingham Playing Field, Nottinghamshire, NG13 8TN

Budget: £38,000

Age Range: Teenagers

Project Story

Bingham Town Council wanted to introduce some teen facilities into the area as they believed a lack of these were impacting on levels of anti-social behaviour. The facilities would need to appeal to both girls and boys, be exciting and encourage challenge through physical activity.

Proludic engaged with a local high school to establish what it is they wanted from a play space. This highlighted that teenagers wanted a hang out space with seating where ball games could take place. To ensure the equipment interested girls as well as boys. Proludic installed a MUSA (Multi-Use Sports Area) which incorporates a range of sports equipment that can attract different users. Outdoor fitness equipment was installed alongside a teenage shelter, goal end and sports equipment. The sports equipment designed with teens in mind replicate dynamic extreme sports for an exhilarating experience. The result is a great space that has helped to reduce anti-social behaviour and keep the community happy and fit.

We were initially dubious about a teenage scheme as we thought it meant creating a concrete landscape, in fact it looks really good and minimal concrete in sight!

Anti-Social Behaviour

A major cause of anti-social behaviour calls are because children are playing in the wrong places and causing problems for businesses and residents. Providing children with facilities such as a MUGA or dynamic equipment gives them a safe place to play, benefiting the whole community, not just the children that use it.
