

Welland Park

Green Flag Destination Park in Leicestershire

Client: Harborough District Council

Address: Welland Park Road, Market Harborough, Leicester, LE16 9DN

Budget: £300,000

Age Range: All Ages & Abilities

Project Story

The project brief for Welland Park was to revamp the area into a state of the art play park that worked with other facilities in the area. The aim was to develop a 'Destination Park' where local people from neighbouring communities could enjoy the day out together.

Proludic wanted to create an area suitable for all ages and abilities and this is something Welland Park provides. The Toddler area includes a beach style Hawaii unit with sand surfacing and a water unit. For younger children, this is an engaging area which represents visiting the seaside for the day. Junior to teenaged children can enjoy the dynamic sports equipment on offer. This includes a Rodeoboard, which is a challenging item tall Volcano tower with a tubular slide and varying climbing levels that all children can access. This unit creates a real focal point for the park and has now been named as 'Green Flag' Destination Park.

After

It's raising the bar for play areas across the country!

Play Spaces for The Whole Community

Playgrounds provide opportunities for local communities to come together at many different levels. They appeal to all ages, abilities and backgrounds, and they help both children and adults to meet and make friends. Creating a play space for varying age groups also encourages families to be active and have fun together.
