

Hereson School

Bespoke Play For New Development

Client: Abbey Homes LTD

Address: Hereson School, Ramsgate Road Kent

Budget: £50,000

Age Range: Toddler, Juniors & Family

Project Story

Proludic Ltd worked in partnership with Abbey New Homes on a Phase 2 project at Hereson Place in Broadstairs, to Design and Deliver a bespoke LEAP. The leap needed to deliver all of the necessary standards and to complement and further enhance the new Community they have developed.

Proludic has delivered a high-quality provision for all ages and abilities, that meet all of the necessary standards required within a Local Equipped Area of Play. We have created a Play Area that sits harmoniously within the new development and appeals to the whole family which offers fantastic opportunities for parents to take part in physical activity alongside their children playing, creating a real community space for new homeowners to socialise with one another.

Local Equipped Area of Play (LEAP) -

Key Features:

- . Its primary function is to engage local children and encourage growth/independency
 - . It is within a 5-minute walking distance from the child's house
 - . 20 meters minimum separation between activity zone and the boundary of dwellings
 - . They are best positioned by a pedestrian route that is well used, although this is not mandatory.
- They must occupy an area of flat grass or hard surface which is well drained together with impact absorbing surfaces beneath and around play equipment or structures as appropriate. The recommended minimum activity zone is 400 square metres with 5+ play activities

LEAP -

An area of open space that includes equipment for children who are beginning to experience play independently. LEAP's should be designed to ensure the area can be used for physical activities alongside play equipment.
