

Carr Lodge Estate

New Estate Gets New Play Area

Client: Keepmoat Yorkshire East
Address: Magenta Crescent, DN4 8SN
Budget: £34,000
Age Range: Junior

Project Story

Keepmoat East Yorkshire appointed Proludic to be their play area delivery specialist for their large new housing development in Doncaster. Knowing we were a preferred supplier to Doncaster Council, gave them peace of mind that they could trust us to provide durable equipment, which also offered great play value for their residents. Designed to cater for families of all ages the Public Open Space boasts play features such as; climbing, sliding, swinging and active play for all ages.

After

Before

We've had great feedback from our customers since opening the new play area. Parents are really pleased that their kids have got somewhere safe on the estate to play out and it looks fantastic too!

- Andy Prestwich, Site Manager, Keepmoat Homes

Play For Housing

Public open space should be seen as an integrated, connected system of green spaces, providing recreational activity. Play areas within housing developments are really important for the local residents moving there. Over 85% of people say that good quality public spaces has a direct impact on their lives and the way that they feel each day.
