

Coate Drive, Winchester

Regenerating a playspace into an explorers adventure

Client: Amey Construction

Address: Coate Drive, Worthy Down, Winchester, SO21 2QZ

Budget: £80,000

Age Range: Toddlers, Juniors, Families

Project Story

Worthy Down is home to military families and has three play areas which were badly neglected and in need of refurbishment and modernisation. Proludic undertook the process of redesigning the spaces giving each one its own identity. We used unique equipment at each site to create a different theme. It was important that children are excited and engaged so they would look to visit and play whenever possible. The Explorer theme lends itself to the choice of equipment for both toddlers and juniors. The challenging Kanope unit and cableway will take children to a different height where climbing becomes a great challenge through the high tunnels. Younger children can absorb themselves in role play with the adventure themed equipment and surface graphics.

Before

After

“ These projects were such fun to work on. We were able to create themes for each play park ensuring there was a new adventure round the corner! Coate Drive had the open space which allowed us to create two distinct zones for toddlers and juniors ensuring a safe place to play for all the family.

New toddler play area

Adventure Themed Multiplay Unit

Roundabout

Playhouse

Adventure themed equipment
Themed equipment encourages children to use their imagination which is stimulated by numerous details and original elements on each item of equipment. The adventure themed equipment transports children into the leafy undergrowth of a jungle environment where they come into contact with a host of wonderful, wild animals.
