Project Story: Stoke Mandeville Parish Council sought to revitalise the local community's play and recreation facilities by upgrading the Eskdale Road playing field. Their goal was to create a dynamic and inclusive play space for children of all ages and abilities, fostering physical fitness and community interaction.

Proludic was selected through a competitive tender process, having provided a design that matched the Parish Council's vision. Proludic's partnership with Stoke Mandeville Parish Council on the Eskdale Road Playing Field project underscores the company's commitment to delivering high-quality, bespoke play areas that support physical activity and social interaction. The project was delivered on time and within budget, exceeding the expectations of the Parish Council and the local community. The space has not only enhanced the recreational offering but also improved community engagement, fostering a sense of pride among residents.

« Proludic designed an exceptional play space with everything we wanted and more. The playground has been very well received by the community with the new Kanope tower attracting lots of new visitors. »

The new playground features a range of thoughtfully selected equipment designed to cater to children of various ages and abilities. The Kanope Multiplay Tower, a central feature of the playground, offers a multifaceted play experience with climbing, sliding, and imaginative play opportunities. This versatile structure is designed to engage children in physical activity while sparking their creativity.

The benefits of the new playground extend beyond the immediate play experience. The revitalisation has increased physical activity among local children, which is crucial for their health and development. The diverse range of play options available helps improve physical fitness, coordination, and social skills. Moreover, the inclusive design ensures that all children, regardless of their physical abilities, can enjoy the playground, fostering a sense of belonging and community.

The installation of new play equipment at Eskdale Road Playing Field has significantly enhanced the community space, providing a modern, inclusive, and engaging environment for children. This project highlights Proludic's dedication to improving community facilities and demonstrates the positive impact that well-designed play areas can have on local communities. The revitalised playground not only meets the needs of today's children but also contributes to a stronger, more connected community.
