Project Story

Euxton Parish Council wanted to re-invigorate and transform an old and under-used play area. They wanted something exciting and different to the other play areas already in the community, it had to be fun and inspire toddlers and juniors to use their imagination. After a community consultation session Proludic were chosen for the project after designing a very eye catching, colourful play area packed with lots of play value.

Proludic chose the theme of 'Adventure In The Jungle' for Greenside Play Area. The Kanope range was selected as the main play feature allowing up to 20 children to play at any one time. This range is perfect for the adventure theme as it was designed with nature in mind. It's structures resembling wild grasses or tree trunks bent by the wind, inviting children to venture into nature.

After

"Working in partnership with Proludic, we have managed to created a brilliant and exciting new play area, which we can't wait for our community to use! I have already had brilliant feedback from the local community and users from out of the local area saying can we have this in our area too!"

- Debra Platt, Town Clerk.

Themed Equipment

Themed equipment meets children's need to invent stories by imitating their everyday experiences, and with the possibility of doing things differently.

As children grow older, their ability to imagine and engage in fantasy fuels their play experiences and improves interaction with others. They acquire greater ease of communication, making it easier to lean and develop self-confidence.
