

Fitz Park

Mission For A Safe & Exciting Play Area - Complete

Client: Fitz Park Trust & Alderdale Council

Address: Fitz Park, Keswick, CA12 5HH

Budget: £180,000

Age Range: All Ages & Abilities

Project Story

The Fitz Park Play Area Project in Keswick was driven by strong local initiative. Their mission was to create and maintain a safe and exciting play area for children of all ages and abilities.

Fitz Park has a riverside setting with glorious open views and the equipment used in the park reflects this theme. The play park has been designed with 3 key zones: Toddler, Junior and Teenagers; identifying specific areas for the whole community to use. The toddler area uses equipment with sand surfacing, the junior zone is based around adventure play and the teen area takes its inspiration from extreme sports. The paths and gates to the park are wheelchair and pushchair accessible and a central sensory area with Inclusive play items ensures no child is left out.

Proludic have supported the project exceptionally well. The service suited our project down to the ground. The play area has been a huge success of a well loved area.

Play Spaces for The Whole Community

Playgrounds provide opportunities for local communities to come together at many different levels. They appeal to all ages, abilities and backgrounds, and they help both children and adults to meet and make friends. Creating a play space for varying age groups also encourages families to be active and have fun together.
