Address: Glenton Green, Berryfields, Aylesbury, HP18 0YA

Budget: £80,000

Age Range: Toddler, Junior, Inclusive

Ranges: Diabolo

Surfacing: Wetpour & rubber mulch

Project Story: New Berry Vale is part of a major development area in Aylesbury. Proludic was chosen as the main supplier winning the contract based on project management delivery credentials, aftersales support offering a responsive spare part service, and robust durable equipment choices.

This new substantial housing project includes over 15 new play areas as part of resident facilities which when completed will all have been designed and installed by Proludic. A fine example of these spaces is Glenton Green which was designed with the main aim of providing an inclusive play area. Proludic offered a wide range of equipment that now allows children of all abilities to play together. The inclusive equipment included one of our ground-level roundabouts for easy access, a mirage swing seat and a wheelchair-accessible multiplay unit which has an inbuilt ramp to take users to the elevated platform.

« The Parish Council is delighted that this planned playground is now open. Berryfields has many playgrounds and we felt it was important that all our residents and visitors have an opportunity to fully enjoy our outside space. »

Monique Foster, Councillor,
Berryfields Parish Council
