

Godolphin Recreation Ground

Bringing a new lease of life

Client: Slough Borough Council

Address: Godolphin Recreation Ground, Slough SL1 3DL

Budget: £42,000

Age Range: Toddler, Inclusive & Families

Project Story

Slough Borough Council required a toddler play area refurbishment and integration with the existing junior play area in Godolphin Recreation Ground. Godolphin Recreation Ground is a well-used community park situated to the north of the historic Baylis Park in Baylis and Stoke Ward, which is one of the more deprived areas of Slough.

The open space is equipped for sports with a full-size grass football and cricket pitch in place. The junior children's play area is situated towards the north of the park with an outdoor gym south of the play area. Being a popular park, Slough Borough Council wanted a new lease of life adding through play.

Proludic brought the area to life by installing a tree shaped design with the play equipment aimed younger ages. Proludic's design allows an adventure through nature on the Jungle Express train whilst balancing on beams, jumping, stepping and climbing to the treetops.

After

The site creates an area that the entire community can use and enjoy together. The playground offers a fantastic variety of equipment to keep toddlers thoroughly engaged.

Inclusive Roundabout

Springer

Experts agree that children with disabilities are like any other children, in that to progress they need to develop their cognitive, psychomotor and social skills as well as their independence. They need to engage in the same activities as their friends, within their own capacities: climbing, jumping, running, touching, imagining ... for their own benefit and to be able to share and interact with others. They want to enjoy themselves like everyone else, with everyone else.

At Proludic, inclusion is a key aspect of our philosophy because we believe that all children should have access to play and to the same play facilities.
