

A CHALLENGING RESIDENTIAL LEAP PROJECT WELL DELIVERED!

HARBOUR EDGE LEAP

Client:	Taylor Wimpey Bristol
Address:	Harbour Road, Portishead, BS20 7DJ
Budget:	£58,000
Age Range:	Toddler, Junior
Ranges:	Vivarea, Origin
Surfacing:	Grass mat, Rubber Mulch

Project Story: With a proud heritage as a fishing port and maritime communications centre, Taylor Wimpey's Harbour Edge LEAP (Local Equipped Area for Play) development in Portishead had to provide toddlers and juniors with a memorable play experience.

There were plenty of challenges along the way in terms of the site being in close proximity to drains and an expansion of works on phase three of the development! On these occasions, Proludic worked with Taylor Wimpey and their Landscape Architect to re-design the area and minimise the costs associated. Proludic helped with the handover and adoption of the site to the Local Authority and supported the opening event for the local community.

The results were spectacular, and the client was pleased with the green landscaped space that would provide excellent play values for the local children. There is something for everyone, from a twin set of cradle swings for the toddlers to the Rodeoboard from Proludic's Dynamic range for Juniors. The two multiplay units give lots of climbing opportunities and the brightly coloured Vivarea unit also has a slide.

« I was proud of the way Proludic project managed the install on this development as we faced a lot of challenges along the way and also got it through planning seamlessly with our choice equipment that the client was really happy with. »

Ben Jones,
Proludic Area Manager.
