Budget:	£161,000
Age Range:	Toddler, Junior, Teens,
Ranges:	Bespoke, IXO, Traditional, Dynamic, Themed
Surfacing:	Wetpour

Project Story: Basildon Borough Council tendered for the refurbishment of one of their stunning play area sites and the addition of inclusive equipment - Lake Meadows Play Area. The design of the playground aimed to add colour to the space as well as incorporating the local surroundings and breathing new life back into the play area.

The rejuvenated space now offers brand new safety surfacing to keep young adventurers safe on the new equipment. We've also added lots of new playground equipment, featuring a bespoke twin castle multiplay unit standing at 4 meters tall, an inclusive seesaw (**J987B**) and a Sky Rail (**J5913A**) to name a few! Make your way across the playground while learning about local stories such as The Wizard, the Dragon and the Lost Eggs which was written, inspired and told by Basildon communities.

« Proludic are a great team to work with, the communication is great and the aftercare service is always the best. »

Throughout the play area, children will notice bespoke wizard themed sensory boards and fun panels, a height chart themed as a dragon as well as an opportunity to interact and read the story on your way in. Proludic ensured all ages and abilities were catered for by ensuring its equipment choices were accessible and were unique such as an inclusive ground trampoline (**R34-ETP-000**).

Opening Lake Meadows
