

Picket Twenty Urban Tower

Taking Play to new Heights

Client: Test Valley Borough Council

Address: Picket Twenty Way, Andover, Hampshire, SP11 6LF

Budget: £120,000

Age Range: Junior, Teenage

Project Story

Working in partnership with Test Valley Borough Council we are proud to showcase the first installation of our exciting new Kanopé double towers unit; boasting the highest play equipment currently available in the play industry. From a successful tender process, we have delivered an exciting solution for the new Urban Park at Picket Twenty, taking children and the local community to new heights. Challenging climbing nets and high platforms allow children to have a unique play experience unlike any other, traversing from one tower to another and taking in the views.

Kanopé Tower

Kanopé Towers

The tall majestic Kanopé towers, as high as 8 metres, will make a striking impact in any environment. Children can climb a rope staircase to reach playhouses perched high at the top of the towers - giving each child a fantastic view and a special space above the action. The large spiral slide guarantees a thrilling ride all the way back down!
