

RAF Valley - Hawkings Recreation Centre

Taking play to new heights

Client: RAF Valley

Address: RAF Valley, Holyhead, Anglesey, LL65 3NY

Budget: £80,000

Age Range: Families; Junior; Toddler

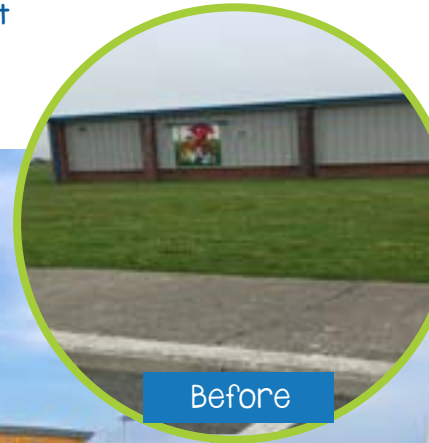

Project Story

RAF Valley wanted to extend the play opportunities for Service families by installing a new play area outside their busy community centre. This would mean children would have a new focus to play and meet friends. Proludic provided an aircraft themed play area with bespoke features which honours the aircraft operating out of RAF Valley. The graphics in the wet pour show outlines of aircraft and even make a special reference to the RAF centenary celebrations. In addition, the graphic under the hurricane swing shows a Welsh dragon highlighting this base's location.

After

Before

“ We were delighted with the design Proludic created for us which represented the aircraft operating from RAF Valley. Their workmanship and efficiency in completing the job was impressive. ”

Dean Clarke, RAF Valley Community Development Officer
