The Proludic Treehouse Arrives in South Ferriby

Client: South Ferriby Parish Council
Address: Sluice Road, South Ferriby, DN18 6JE
Budget: £73,000
Age Range: Junior, Adults and Families

Project Story

Proludic were invited to put forward suggestions on how best to update South Ferriby Parish Council's play area at Sluice Road Playing Fields. For years there had been a large, timber play structure insitu that was much loved by the local community, but which had sadly come to the end of its useful life. They knew that we must replace it with a new item that not only had as much play value as the timber unit, but even more! As soon as the Council saw the Proludic Treehouse they knew that we understood their needs. Once installed, the size, play value and quality of the Treehouse impressed everyone.

Local company CEMEX contributed £10k of funding to be put towards outdoor fitness at the park. The Parish Council loved that the Proludic Urbanix range provides differing levels of resistance, meaning that people of all fitness levels can use the equipment. The outdoor gym provides a full body workout across the 5 items installed.

After

Before

Wow! We weren't expecting the Treehouse to be so big and amazing! Everybody loves it, even us big kids. The fitness equipment is great, parents are working out while the kids play which is perfect. We're only a small village so to have a facility like this that everyone can use is really great.

- Councillor Dave Mouncey, South Ferriby Council
