Project Story: This cherished local play space, once showing signs of wear and tear, has been reinvigorated into a vibrant and engaging environment for children of all ages. The centerpiece of this project is a bespoke Recycling Truck Multiplay Unit, an innovative addition designed to educate and inspire the next generation about the importance of recycling.

Costessey Town Council approached Proludic with a vision to refresh the Poethlyn Drive playground, ensuring it continues to be a central hub for the community's young adventurers. The objective was clear: to breathe new life into the playground with fresh, exciting equipment that not only entertains but also educates.

With this in mind, Proludic breathed new life into the space with a range of maintenance services; ensuring the space continues to be a safe and functional space for children.

I am thrilled with the transformation at Poethlyn Drive, Costessey. The new play equipment, especially the themed recycling truck, has brought a fresh, engaging element to the playground that both children and parents love. Alongside this exciting new feature, we carried out extensive maintenance across the site, rejuvenating a well-loved and much-used space. >>

Specific goals included:

- Revitalising a well-used playground with new, innovative play equipment to ensure the space remains popular space for play.
- Bespoke themed play equipment designed in the form of a recycling truck, perfect for role-playing and adventures.

The refreshed playground at Poethlyn Drive has quickly become a favorite destination for families in Costessey. The vibrant colors, engaging equipment, and thoughtful design have made it a space where children are eager to explore, learn, and play. Parents have expressed their appreciation for the new equipment, particularly the Recycling Truck Multiplay Unit, which they see as a valuable teaching tool.

The project has also been a source of pride for Costessey Town Council, demonstrating their commitment to providing high-quality recreational facilities for the community. The playground now stands as a testament to what can be achieved when local councils partner with innovative companies like Proludic to invest in the future of their communities. The new playground is more than just a place for children to play—it's a space where they can learn, grow, and connect with their environment. The success of this project highlights the positive impact that thoughtful design and innovative play equipment can have on a community.

We look forward to continuing our partnership with Costessey Town Council and other communities to create inspiring play spaces that delight and educate children for years to come.
