

COMMITTEE SEEK HELP TO REFURBISH LOCAL PLAYING FIELD

WHATTON & ASLOCKTON PLAYING FIELD

Client:	Whatton & Aslockton Playing Field Committee
Address:	Dark Lane, Nottinghamshire, NG13 9AA
Budget:	£45,000
Age Range:	Junior, Teenagers
Ranges:	IXO
Surfacing:	Grass mat

Project Story: There was very little play equipment on this underutilised village playing field. Therefore the local committee responsible for the playing field sought outside help to improve these poor facilities.

As the committee had no experience in sourcing play and sports equipment, they chose Nottingham-based company Proludic to help them to visualise and deliver their dream space. Proludic provided equipment that covered a wide age range of ages and abilities.

The trampoline now offers users from 3 years and upwards the chance to not only be sociable, but also to develop balancing skills through bouncing. A zip wire gets the adrenaline pumping and the arched monkey bars on the multi-play IXO unit makes for challenging play experiences for children from the age of 6. The roundabout can accommodate up to 8 users and the deck is also the perfect transfer height from a wheelchair should it be needed. The goal end tops off the exciting new site by offering children wanting to play ball games.

« Our sincere thanks go to your company for all the valuable assistance you have given us. Our play equipment project was a mammoth task for us, but was made easier by your professional approach to our needs. The completed project has been welcomed by local residents and is in constant use. All in all, it has been a pleasure to deal with your company team and may I thank you on behalf of the Whatton & Aslockton Playing Field Management Committee. »

Paul Brown
Chair, Whatton & Aslockton Playing
Field Management Committee
