

CREATING A COMMUNITY PLAY AREA

WHITMORE PARK

Client: Basildon Borough Council

Address: Whitmore Way, Basildon, Essex, SS14 2TL

Budget: £90,000

Age Range: Toddler, Junior

Ranges: Kanopé, Adventure theme

Surfacing: Wetpour, Thermoplastic Graphics

Project Story: When the playground at Whitmore Park needed refurbishing, Proludic attended a fund-raising event to help Basildon Borough Council raise funds. Pupils from Whitmore Primary School helped select the chosen playground equipment.

Suitable for toddlers and juniors, the new equipment is challenging as well as fun. There is an exciting multiplay unit from our nature-themed Kanopé range that includes many unique elements such as a net tunnel and climbing wall. A Rodeo board inspired by windsurfing pushes the users balancing skills while testing upper body and core strength. There is also an Adventure themed multiplay unit, traditional swings, spinning bowl, and playhouse, all topped off with Harry the Hippo and Larry the Lion springers! Colourful animal graphics incorporated in the wetpour surfacing enhance the playground's jungle theme and provides opportunities for role-playing.

« This was a great project to be involved with, bringing together community partners and local businesses to provide an exciting play space for local children and young people to enjoy for many years to come. »

Tracey Bromley,
Leisure Projects Officer,
Basildon Borough Council.
