

CONQUER THE CHALLENGE, UNLEASH YOUR INNER WARRIOR

WINGFIELD DRIVE, POTTON

Client: Central Bedfordshire Council

Address: Wingfield Drive, Sandy, SG19 2GQ

Budget: £53,000

Age Range: Families, Junior, Teen

Ranges: ACTI'Ninja

Surfacing: Wetpour

Project Story: Central Bedfordshire Council identified Wingfield Potton as an ideal location for a recreational upgrade to engage residents and promote physical activity. The council recognised the need for a dynamic and challenging play area that caters to older children and families as currently there is just a play area for the younger children. Proludic, known for providing high-quality and innovative equipment, was chosen as the supplier for the project due to the uniqueness of the range

The objectives of the project were to enhance the recreational offerings at Wingfield Potton and create a destination that encourages active lifestyles for older children and families. Specific goals included creating an inclusive space that fosters social interaction and healthy competition. The installation of the large Ninja Warrior trial at Wingfield Potton has transformed the area into a dynamic and engaging destination for older children and families

I'm absolutely thrilled by the positive response to the new ACTI'Ninja assault course equipment at the Wingfield Drive playground. It's been a joy to see children embrace the challenges and adventures it offers. Knowing that I've played a part in enhancing the community's recreational space fills me with immense pride. >>

The project has achieved the following outcomes:

- **Increased Physical Activity:** The Ninja Warrior trial has provided older children and families with a challenging and enjoyable way to stay active and improve their fitness levels.
- **Enhanced Recreation Options:** Visitors now have access to a diverse range of recreational activities, promoting outdoor play and healthy lifestyles.
- **Positive Feedback:** The Ninja Warrior trial has received overwhelmingly positive feedback from users, who appreciate the opportunity to test their skills and compete with friends and family members. The equipment's durability and innovative design have made it a popular attraction in the community.

The collaboration between Central Bedfordshire Council and Proludic has resulted in the successful installation of a large Ninja Warrior trial at Wingfield Potton. By providing residents with an exciting and challenging play area, the project has enhanced the recreational offerings in the area and encouraged active lifestyles among older children and families. Wingfield Potton now stands as a model for innovative and inclusive recreational spaces, showcasing the positive impact of collaboration and forward-thinking design.
